## PROJECTS

---

- **Restaurant app by React** <https://smart-restaurant-2c2d9.web.app/>
  - Restaurant app is done by using React JS as a JavaScript library, including React third libraries [Hooks, Routing and Redux], Authentication, Lazy loading, CSS animation and made it responsive.
  - As a backend, I worked on Firebase as a dummy backend to send and fetch data.
- **Randomly Landing page app** <https://jamilafouri99.github.io/PURE-JS-PROJECT/>
