EXPERIENCE

Software Engineer | TapFlow Amman, Jordan 1/2022-Present

- Improved Front-End experience by using the latest tech.
- Handled scalability and validation related problems.

Software Developer | Nixpend Intelligence Based Amman, Jordan 3/2021-10/2021

- Improved the process of building medical forms and modals using the latest technologies.
- Dealing with ERP as system management.
- Training our new employees about how to use Git, GitLab, and build medical forms.

Call Center-Data Entry | Ahli Bank Amman, Jordan 2/2020-2/2021

- My responsibility was to respond to the customer's calls, answering their questions about our services.
- Organized events with high quality and proficiency.

VOLUNTEERISM / COMMUNITY LEADERSHIP

Chairman | IEEE BAU Amman, Jordan 10/2020-10/2021

- Chairman of IEEE at BAU, this team is a branch of the international organization IEEE, which is concerned with spreading science and knowledge, developing engineers, and increasing their awareness about their abilities and technology. Where I led this team, which consists of 230 members who have passion and love of learning, we did training workshops, courses, and projects to serve the community and participate in international competitions. Also, we achieved international prizes. Moreover, we have been honored by Jordan TV and the president of the university more than once for our accomplishments.
